Keep Dry

Don't get caught off guard. Arenal can go from sunshine to storms in the blink of an eye. Take a rain jacket just in case.

Sun Block

You'll drive 25 minutes from the hotel together with your experienced naturalist guide. Together you'll start along a safe trail with fantastic views of the volcano.

Take time to examine the vegetation along the trail, many new pioneer species of plants and trees have fought their way through the rock and ash to rejuvenate the area. As you approach the lava fields you'll hike up a flight of steep steps (about 5-7 minutes) and from the top, on clear days, have an incredible view of both the volcano and Lake Arenal. Next, you'll enter the dry lava fields. While quiet, the Arenal Volcano is still very much an active volcano.
